

The Institute for Operations Research and Management Sciences (INFORMS) is the world's largest professional society for those in the field of Operations Research, Management Sciences, and advanced analytics. INFORMS works to encourage a broader understanding and recognition of O.R., the management sciences, and advanced analytics as a profession.

The Auburn University Student Chapter of INFORMS promotes interest in the fields of OR/MS, fosters a sense of community among students in these disciplines, and promotes the exchange of ideas, mentoring for students, and connections between students and professionals in industry and academia.
